# We're the Appliance Experts

Elgas is Australia's leading supplier of LPG. Our network of over 250 agents and retail partners have a proud history of providing safe, reliable, tanker-delivered LPG to Australian homes and businesses.

If you're thinking of renovating, replacing an appliance or improving your home with a gas appliance, you can't go past the experts at your local Elgas centre.

#### **GREAT DEALS**

With the backing of one of the largest buying groups in the industry, you'll have access to a wide range of leading brand gas appliances at the very best prices. Look out for our fantastic *Daily Specials*, offering value packages you just can't beat.

#### **EXPERTISE**

Elgas is the gas appliance specialist. Our staff can draw on years of collective experience in this specialised area and provide expert advice to both tradesmen and manufacturers, helping you choose the right appliance for your home.

#### **LOCAL SERVICE**

You won't have to travel far to get great deals and knowledgeable advice. Supporting our long list of dedicated Elgas centres is a strong network of over 250 retail partners. So you can be sure that a local expert who understands your needs is just around the corner.

LPG is a cleaner, cost-effective form of energy and Elgas LPG is fast becoming the fuel of choice. What many people don't realise is that LPG is available everywhere and provides a range of benefits throughout your entire home.

Continuous Flow Hot Water Systems not only provide you with hot water on demand, convenience and added functionality, but when combined with 'one-touch' temperature control, also offer total peace of mind.

Cooking with LPG provides the ultimate cooking experience, with instant, controllable heat that wraps around your pan.

Effective Warmth is assured through the speed and effectiveness of a convection heater or the sheer romance of a log fire in your lounge room.

Protecting the Environment is something we can all do, because fuelling your home with LPG also helps reduce Greenhouse gas emissions. This is supported by Federal and State Governments and many local councils who offer a variety of rebates and incentives to reward environmentally-friendly choices made by householders.

Never has the protection of our environment been a bigger issue, and you alone can make a difference.

Replacing your electric hot water system with a 5 Star LPG continuous flow hot water system can reduce the Greenhouse gas emissions produced from your hot water use by 75%. Combine this with the great benefits of gas cooking and heating and you will never look back!

Government and local councils are working together to implement legislation by offering generous incentives to encourage people to make the switch from electricity to gas. Elgas is supporting our industry partners to make this process easier.

To find out more, call your local centre on 131 161 or visit www.greenhouse.gov.au

## A Sign You'll Save REBATE

The purchase and installation of a number of products in this catalogue may make you eligible for Government and council rebates. We have placed a rebate icon (above) on these products for easy identification. So keep a look out for the icon to see where you may be able to save!

To find out more about rebates in your state, visit the relevant website listed below:

# heatens

smart shut off sensors

instant cosy warmth

tilt safety mechanism

infra-red radiant or convection heat

electronic push button ignitions For Real Warmth, Go with Gas

There's no better way to provide real warmth to every corner of your home than with the ambient warmth of a gas heater. There is a wide range of gas heaters to choose from, so whether it's the speed and effectiveness of a radiant and convector heater or the sheer romance of a log fire in your lounge room, there's a heater just right for your needs. And while you're on the couch, you can rest easy knowing that LPG heaters and log fires are an environmentally friendly way to heat your home.

#### **PORTABLE GAS HEATERS**

These heaters are cost effective to run and provide 2 – 4 times more effective heating than electric models. Choose from radiant, convection or fan-assisted models that can easily be moved to any room with a gas connection. Keep an eye out for the many features such as remote controls, timers, adjustable fans and valuable safety features.

#### **FIXED HEATING**

These are ideal for heating large, open plan living areas. The instant heat and optional settings ensure your whole room is always cosy. Some of these larger models will require a flue to ensure exhaust ages are expelled and your room is warm and safe.\*

\*In some greas there may be restrictions associated with unflued heating: it's always best to check with your local retailer.

#### **PALOMA**

#### RADIANT PG 451S

Ideal for smaller rooms, this speedy heater combines practicality with economy, as indicated by its truly amazing 5.9 Star rating. With two heat settings, piezo ignition and the added benefit of full portability, this is a genuinely versatile heater. Available in WHITE.

\$440

#### **PALOMA**

#### RADIANT PG 651S

This high energy-rating heater with piezo ignition quickly heats your living area through the immediate and direct effect of infrared radiant heat. Safety is paramount, with an inbuilt oxygen depletion safety system and safety tilt switch. It also has two heat settings for comfort and economy. Available in WHITE.

\$485

#### **PALOMA**

#### **RADIANT PG 851S**

This speedy radiant heater has two settings for comfort and economy and a reliable piezo ignition. It is extremely safe if accidentally knocked over or if the oxygen levels fall below an acceptable level as the gas supply automatically shuts off. Its wide base ensures high stability. while an ergonomically designed handle makes it easy to carry. Available in WHITE.

\$685

#### **PALOMA CONVECTION PG-311F**

#### **BONUS EXTENDED 5 YEAR WARRANTY**

This stylish model provides a guiet convection heat that fills a whole room up to 54m<sup>2</sup>. Always mindful of safety, features include a safety tilt switch, oxygen depletion system, flame failure and power failure protection devices. Available in WHITE and SILVER.

#### **PALOMA**

#### **CONVECTION PG-511FR**

#### **BONUS EXTENDED 5 YEAR WARRAN**

This excellent heater combines dual timers and a remote control for ease of use. The child lock function, automatic economy function, safety tilt switch, oxygen depletion safety system, flame failure and power failure protection devices ensure safety and efficiency. Leaving nothing to chance, a filter-clean warning light flashes when the filter is blocked or there is a hot air outlet blockage. Available in WHITE

did you know? Greenhouse gases are necessary to make the earth habitable – it is the thickness of the gases that impact the environment.

#### **PALOMA CONVECTION PG-711FR**

#### **BONUS EXTENDED 5 YEAR WARRANTY**

This powerful model comes packed with features to ensure you can sit back and relax in comfort. Dual timers and a remote control place you in full command of your heating, while the child lock function, automatic economy function, safety tilt switch, oxygen depletion safety system, flame failure and power failure protection devices provide total peace of mind. What's more, a filter-clean warning light flashes when the filter is blocked or there is a hot air outlet blockage. Available in WHITE and SILVER. Not available in South Australia.

#### **RINNAI**

#### **AVENGER 25 CONVECTOR**

One of the largest portable gas heaters on the market, the Avenger 25 is perfect for heating large, open plan living areas. The Avenger features a remote control, an economy function and a five year warranty for added peace of mind. Meanwhile, its low NOx emissions ensure the comfort of those with any respiratory sensitivity. It is fully programmable with dual weekday and weekend timers so you can come home to warmth and comfort on the coldest of winter nights. Available in WHITE and PLATINUM SILVER.

#### **RINNAI**

#### **TITAN 151**

This sturdy, reliable and highly efficient 5.9 Star rated heater combines the effectiveness of radiant heat with a powerful fan. It offers two heat settings, ensuring maximum comfort in your home. Available in OFF-WHITE and PLATINUM SILVER.

#### **RINNAI**

#### **GRANADA 252**

This powerful gas heater combines the warmth of radiant glow with a two speed convection fan. It is ideal for heating large areas with maximum efficiency. Available in OFF-WHITE and PLATINUM SILVER.

#### **RINNAI**

#### CAPELLA 18 PLUS

Highly efficient at 5.8 Stars and capable of heating up to 102m<sup>2</sup>, this powerful heater boasts an additional 2kW electric boost, ideal for very cold conditions. The electric feature gives you full versatility as it means the heater can be used in rooms without a gas bayonet point, such as bathrooms and bedrooms. It also features a remote control, an economy function, a five year warranty and dual weekday and weekend timers. Available in WHITE and PLATINUM SILVER.

#### **RINNAI ULTIMA II**

Update you home with the stylish new Rinnai Ultima II. It is ideal for open plan living areas and rated at 4.4 Stars, making it efficient and cost effective to operate. The heater is thermostatically controlled and has all the state-of-the-art Rinnai safety features, including an overheat safety switch. It's also fully programmable with dual timers for morning and evening. Available in BEIGE and GUNMETAL SILVER.

#### **RINNAI**

#### DYNAMO 15

Highly efficient at 5.8 Stars and capable of heating up to 59m<sup>2</sup>, this powerful and compact heater is perfect for small living areas. It features an economy function, a five year warranty and dual weekday and weekend timers. Available in WHITE and PLATINUM SILVER.

#### **RINNAI**

#### **INCLUDES DIRECT FLUE KIT**

#### ENERGYSAVER K556 & K557 FTR

The Rinnai Energysaver combines large area heating with a stylish, unobtrusive design and flexible installation. The unique 'pre-heat' intelligent inbuilt timers provide you with the ultimate in temperature control and safety. The Energysaver is available in two distinct designs to provide flexibility for installation in any room.

#### **RINNAI**

#### **INCLUDES DIRECT FLUE KIT**

#### **ENERGYSAVER K308 FTR**

Ideal for all smaller areas, including bedrooms, this Powerflued Energysaver achieves an ideal balance of clean warm air at efficiency levels which outperform other flued heating systems. It is rated at 4.3 Stars, making it efficient and cost effective to operate. It also comes complete with full thermostatic operation, dual programmable timers and a remote control.

did you know? Unflued LPG heaters are 100% efficient as all heat is retained within the room.

#### Elgas regularly update its Daily Specials. Call NOW on 131 161 or log onto www.elgas.com.au to find out what great deals are available today!

#### **EVERDURE**

#### **AURORA**

#### **BONUS FLUE KIT & REMOTE**

#### ARCHER FREESTANDING

The features of this heater ensure optimum safety, comfort and efficiency. It has three burner settings, an automatic humidifier to moisten the air and a three-speed fan for maximum heat output. All the operating modes can be viewed on the display monitor located on the front of the heater, and for added safety, a screen has been fitted to the door's glass. Available in a choice of colours. Pedestal and GOLD/CHROME door trim optional extras.

#### **AURORA** ARCHER MODEL FLAT FRONT

**BONUS FLUE KIT. REMOTE & SURROUND** 

Boasting a high 5.7 Star energy efficiency rating, this flat front model offers complete sophistication in heating. It's able to heat up to 150m<sup>2</sup> with no unsightly flue. Australian made, with auto ignition, three-speed fan, three heat settings and installs anywhere with zero clearance. Available in a choice of finishes.

#### **CANNON**

#### FITZROY PROFILE INBUILT

Featuring electronic ignition, two heating settings, a three-speed fan and a slimline front fascia, this gas log heater fits perfectly into your masonry or brick fireplaces for seamless integration into any room. Its 4 Star energy rating provides cost effective warmth.

#### FREESTANDING

#### **BONUS FLUE KIT**

This freestanding model features electronic ignition, two heat settings, a three-speed fan and a standard mesh safety guard.

#### INBUILT POWERFLUE

With a horizontal flue stretching straight from the back of the heater to the outside, this inbuilt model with Powerflue can be installed on any external wall, including an apartment's. Using outside air for combustion, the Powerflue has a 4.4 Star energy rating and keeps your home clear, fresh and warm.

#### CANNON

#### **CANTERBURY**

An elegant, curved appearance makes the Cannon Canterbury a stylish addition to any home and provides you with unobstructed views of the flame. It is easy to use, with two heat settings and a three-speed fan that delivers heat effectively to warm large rooms. With an impressive 4 Star energy rating and heating up to 80m<sup>2</sup>, it is also extremely cost-effective to run.

INBUILT

This inbuilt model requires no flue to install in a pre-existing masonary or brick fireplace.

**BONUS GOLD TRIM** FREESTANDING

\$2,845

This double glazed, freestanding model is an attractive addition to your home.

#### **CANNON**

#### FITZROY INBUILT WITH DOUBLE GLAZED GLASS

New to the Cannon range, this gas log heater provides unobstructed views of the realistic flame picture and natural look eucalyptus logs without the need for a mesh guard. The discreet, slimline design heats up to 80m<sup>2</sup>, making it a perfect match for any Australian home. The safe to touch double glazed doors provide both peace of mind and a stylish finish.

REMOTE CONTROL OPTION Ask your retailer about the remote control upgrades available on selected Cannon models.

#### **RINNAI**

#### **REFLECTION**

Rinnai's Reflection range sets a new standard in gas log fire design, features and technology. With 6.9kW heat output, it heats up to 106m<sup>2</sup> and the high efficiency heat exchanger reduces running costs and helps save the environment. Available in three styles and colours (PEARLESCENT BLACK, CHAMPAGNE SILVER and DARK BRONZE) to suit a range of installation types and decors. Optional STAINLESS STEEL side trims also available.

approval. Please see in store for full terms and

did you know? When burnt, LPG results in lower CO2 emissions compared to 'heavier' fuels such as petrol, diesel or coal.

# cookery

When it comes to cooking, there's simply no substitute for LPG.

Leading chefs agree that the instant controllable heat of a direct flame that wraps around the pan provides the ultimate cooking experience. With Elgas LPG, that experience is available to everyone, no matter where you live.

Elgas LPG is a safe, dependable energy source that can really boost performance. It's also far more responsive than other energies, which is particularly practical when instant heat and fingertip-control are so important.

LPG gives you immediate heat on ignition that responds instantly to any change in setting and deliver a broader distribution of heat across the base of your cooking implements.

#### CHEF

#### GAS UPRIGHT GBC5266W

This 540mm upright stove with four burner hob features piezo ignition, twin shelves and front control panels for easy access. The oven door with window is removable for easy cleaning while a separate grill compartment has a wide, slide-out grilling tray.

did, you know. In time, CO2 emitted in Australia can impact the climate in Brazil, making this clearly a global problem.

# hot water

# LPG Continuous Flow Hot Water Systems

Continuous flow hot water systems work by igniting a flame when you turn the hot water tap on. This heats the water as it passes through the pipe, meaning:

- You have hot water on demand
- You only heat the water as you need it, so you only pay for what you use and don't waste of drop!
- They are more environmentally friendly minimising Greenhouse gas emissions.

Continuous flow hot water systems also provide you with the option of Controllers. These are a must-have if you have children in the house as they allow you to choose the precise temperature you want for every room of the house. You can be sure the kids' bath is always safe, while enjoying the temperature of your choice in your ensuite, laundry or kitchen.

The Auto Fill setting is also a bonus. It lets you program the exact temperature and amount of water for your bath, saving time and precious water.

An LPG continuous flow hot water system is also nice and compact. It is wallmounted so you have flexibility in where it is installed, thereby freeing up precious space in your house or garden.

Elgas can assist you with choosing the right system for your needs. Keep an eye out for our grea value deals, many of which come complete with a BONUS Controller.

hot water on demand

> heat as you use

environmentally friendly

> precise temperature control

excellent energy star ratings

> easy to install

# Residential Hot Water

The Australian Greenhouse Office site (referenced below) provides Greenhouse gas emissions for a range of locations and households.

This source can be used whenever Elgas quotes a figure.

The figures for 'gas' can be applied to LPG or natural gas as there is very little difference between them.

See www.greenhouse.gov.au/yourhome/ technical/fs42.htm

Hot Water System Greenhouse gas emissions - Tonnes CO<sub>2</sub>-e pa Australian Greenhouse Office, Sydney, medium household

An LPG continuous flow hot water system replacing an electric storage system reduces Greenhouse gas emissions by 75%. Note also that the Greenhouse gas emissions for LPG continuous flow are lower than for an electric boosted solar system.

# Am l'Eligible for a Rebate?

BONUS CONTROLLER

#### **RHEEM**

#### **INTEGRITY 24**

The streamlined design of the Rheem Integrity 24 is perfect for homes where space is limited and continuous hot water is a must. Rheem Integrity provides the reassurance of temperature controlled hot water plus frost protection, diagnostic display and FlameSafe protection included as standard. With the option of standard or deluxe temperature controllers, you can also choose the exact water temperature that's right for you.

#### **RINNAI**

#### **INFINITY 16**

INFINITY water heaters offer the largest water flow capacity on the market and impressively high energy efficiency ratings. The INFINITY 16 delivers up to 16 litres of hot water per minute, while the addition of temperature controllers ensures you can control the temperature precisely.

**\$1,070** 

#### RINNAI **INFINITY 26**

#### **BONUS UNIVERSAL CONTROLLER**

Australia's favourite continuous flow water heater, the top-of-the range Rinnai INFINITY provides 26 litres of water per minute, making it ideal for two to three bathroom homes. Perfect for families with children, the installation of temperature controllers provides added peace of mind.

# Australia's First 6 Star Hot Water System

#### **RINNAI**

#### **ENVIROSMART**

Australia's first 6 Star continuous flow hot water system.

While a traditional storage system uses energy to maintain constantly heated water in a large tank, Envirosmart heats the water only as you need it. As it uses less energy, it's better for the environment and more economical to run. In fact, when compared to an electric storage tank, the Rinnai Envirosmart can reduce your Greenhouse gas emissions by up to 3.6 tonnes per vear.

## 12 Months Interest Free!\*

You can purchase your LPG appliance and supply today from as little as \$150 deposit. Take advantage of our 12 months interest free offer and simply choose a repayment plan to suit your needs, complete an Easy Payment Application form and we will process your application within 24 (business) hours.

It's just one more reason to choose Elgas for all your LPG needs.

did you know? The most common Greenhouse gas emissions are carbon dioxide (CO2), methane and nitrous oxide. CO<sub>2</sub> represents 80% of Greenhouse gases and created when fuels are burnt.

#### **RHEEM**

#### STELLAR 330 FIVE STAR STORAGE

The Rheem Stellar 330 is a revolution in high performance water heating, offering excellent hot water capacity and superior quick-reheat performance for the busy family. With sleek, ultra-modern styling, Rheem Stellar also offers 5 Star gas efficiency and durability thanks to the ingenious Stellar SuperFlue. Meanwhile, a ten year warranty provides total peace of mind.

\$1,195

#### **RHEEM**

#### STELLAR 360 FIVE STAR STORAGE

The revolutionary Rheem Stellar 360 is a high-performance water heater that offers outstanding hot water capacity and a superior 200 litres per hour quick-reheat performance for larger families. Rheem Stellar's 5 Star gas efficiency also saves you money, while a comprehensive ten year cylinder and SuperFlue warranty provides peace of mind.

\$795

#### **DUX**

#### PRODIGY 135

With a 135 litre capacity, this external or internal unit is ideal for a three to five person household. Featuring a Colorbond finish, standing pilot light and the ability to reheat as you use the water, the unit is also backed with a five year warranty.

\$935

#### **DUX**

#### PRODIGY 170

The Prodigy 3 has a 170 litre capacity with full flow pressure to all taps. Water connections on both sides of the tank make for easy installation, and adjustable thermostat provides safety, efficiency and control. This water heater is perfect for a family of four to six people and comes with a five year warranty.

\$925

#### **AQUAMAX**

#### FIVE STAR 135

The proudly Australian AquaMAX 135 water heater is the only one of its type and offers superior efficiency delivering 270 litres in the first hour. With a 135 litre tank capacity, easy installation and compact nature, this unit will suit new homes or the replacement of existing units. The MAXI-namel cylinder comes with a five year warranty and twin anodes for a longer life of the tank.

# Why Elgas is Different

#### **WE'RE LOCAL**

Not just one national call centre, but a multitude of customer service centres in key locations across the country. That's what makes Elgas as local as you are. Our business is constantly evolving to better serve the needs of our customers. Obviously, we don't all live near a capital city, but everyone has the right to expect the same kind of service as those who do. That's why Elgas is prominently represented in regional areas throughout the country.

#### WE'RE DELIVERING

As Australia's premier supplier of LPG, we've perfected the delivery process by way of our EasyGas service. Our special-purpose tankers fill cylinders on site and usage is monitored to ensure deliveries are automatically scheduled to suit your needs.

#### **WE'RE SAFETY CONSCIOUS**

Elgas is dedicated to the safety of our employees, our customers and the communities in which they live. Our 'best practice' safety and compliance program is unparalleled in the industry. To learn more about the Elgas safety procedures, please call your local Elgas representative on 131 161.

#### **WE'RE THE EXPERTS**

Elgas is everything you want in hassle-free LPG. Whether you're a home or business customer, we can help you with all your LPG needs. Our local customer service centres, retail partners and agents offer the very latest LPG products and appliance packages. Elgas have long-term relationships with Australia's leading appliance and equipment manufacturers, which means we can offer you the best possible prices.

# Choosing Elgas is Easy!

If you've just purchased an LPG appliance, you probably can't wait to get it up and running. Elgas make it easy to get connected with our premium tanker gas delivered straight to your door. It's called EasyGas!

You won't have to remember to order LPG, swap cylinders or re-ignite pilot lights. Elgas monitors your usage and schedules regular deliveries to suit your needs. There's no more replacement of cylinders or wheeling trolleys through your garden. EasyGas is a safe, convenient refill using a hose connected straight from our truck to your home.

- Call 131 161 and you will be put straight through to your closest Elgas centre
- Our friendly and professional staff will have you connected to safe, reliable LPG in no time. It really is that easy!

2-3

\$3,540

#### **RINNAI**

#### SUNMASTER 215 / 2 PANEL FTC 26 BOOST

Suitable for larger households with two to three bathrooms, the Rinnai glass lined steel solar tank provides a durable surface to protect against corrosion. This is combined with the higher flow from the S26 gas-booster and two frost tolerant solar collectors for areas prone to frost, guaranteeing lasting hot water all year round. This configuration is a split system, whereby the tank is installed at ground level.

SUNMASTER 215 / 2 PANEL 26 BOOST without frost protection

\$3,340

\$2,425

#### **RINNAI**

#### SUNMASTER 175 / FTC 20 BOOST

The compact Rinnai Sunmaster is ideal for one and two bathroom households or properties where space is at a premium. Its 175 litre, glass-lined steel solar tank combines with the S20 gas-booster and the frost tolerant Enduro solar collector to provide continuous hot water, maximizing the natural heating gained from the sun. This configuration is a split system whereby the tank is installed at ground level.

\$2,325

#### **VULCAN**

#### **SOLAR**

The Vulcan VS160 is an affordable, gas-boosted solar water heater. It features a 160 litre, ground mounted solar storage tank and one high performance  $2m^2$  roof mounted solar collector. A 5 Star efficient, continuous flow gas-booster guarantees continuous hot water on cloudy days, but doesn't boost unless required. The VS160 incorporates a patented frost protection system that is electronically controlled for reliable operation. It also qualifies for thousands of dollars in both State and Federal Government incentives, and carries a five year warranty. (511160/1HBT-18)

## Solar Hot Water Systems

Australians love their sunshine - and we sure have plenty of it! But we can do more than just enjoy it, we can harness the power of the sun for our own energy needs. Using a solar hot water system is a great way for you to reduce Greenhouse gas emissions. However, make sure it is a gas-boosted solar system, because many people undo all the good work of installing a solar system by boosting it with electricity. With a gas-boosted solar hot water system you'll always have plenty of hot water (even when the sun isn't shining), and you'll be vastly reducing the cost to the environment.

# Environmentally Friendly

#### **GAS FIRED**

#### CLOTHES DRYER DRYSOFT 4KG

The Rinnai Drysoft uses the power of gas to significantly decrease your drying time and running costs. Features include wrinkle reduction, five drying programs, auto-off sensor, fully electronic controls, a timer and a dual-hinged front door. Received two Energy Efficient Product awards in 2006

**6KG MODEL ALSO AVAILABLE** 

\$1,655

\$1,455

#### DUX

#### READYHOT WATER RECIRCULATION PUMPS

With water becoming such a precious resource, these devices may well become part of every discerning home. When you first turn on a hot water tap, it can take 15 to 20 seconds to get hot water due to the cold water resting in the pipes between the water heater and the outlet. These innovative units recirculate the cold water back through your system, saving every precious drop. Winner of HIA and Greensmart Awards. Cannot be used with gravity feed systems.

SMALL NEW INSTALL

\$795

• SMALL EXISTING INSTALL Suitable for mains pressure storage systems.

\$935

LARGE NEW INSTALL

\$1,105

• LARGE EXISTING INSTALL Must be used on all continuous flow systems. \$1,245

did you know? In 2007, more than 120,000 vehicles were converted to LPG in Australia alone, resulting in 90,000 fewer tonnes of CO2 released.

the greener alternative focus on

> industry leader

safety

#### Why should I swap my gas bottle rather than having it refilled?

When you swap your gas bottle you don't have to worry about:

- When it was last checked to ensure it is safe.
- Whether it has been filled correctly.
- If it is still in date.

And you don't have to wait around to have it refilled!

#### How do I swap my gas bottle?

Swapping is quick and easy:

- You just go to your nearest Elgas SWAP'n'GO outlet.
- Take your empty gas bottle to the cashier for checking and payment.
- Then swap your empty gas bottle for a full one from the SWAP'n'GO storage cage.

#### What sort of gas bottle can I swap?

You can swap any brand, condition or type of gas bottle that is up to 9kg in size. You can swap a medium gas bottle for a large gas bottle and Elgas SWAP'n'GO will even swap a gas bottle that is out of date (out of test) and cannot be refilled.

#### What if I don't have a gas bottle to swap?

If you don't have a gas bottle to swap you can purchase an Elgas SWAP'n'GO gas bottle full of gas.

#### Do I own the gas bottle I receive?

Yes, when you purchase or swap a gas bottle you own the SWAP'n'GO gas bottle you receive.

#### How do I know a SWAP'n'GO gas bottle is safe?

At Elgas, we pride ourselves on our bottle quality. All SWAP'n'GO gas bottles are either new or quality checked and have been refurbished by trained technicians

#### How can I tell if the gas bottle I will receive is full?

Every SWAP'n'GO gas bottle is precision filled to either 8.5kg (large bottles) or 3.7kg (medium bottles) and leak tested by Elgas technicians. Look for the yellow seal on the neck of the gas bottle which indicates that it has been quality checked and filled to safe industry standards.

#### Where can I swap my bottle?

You will find a SWAP'n'GO outlet at most service stations as well as some convenience stores, hardware stores and selected bottle shops.

Call 1300 652 003 to find your nearest Elgas SWAP'n'GO outlet.

# outdoor

## We've got the Great Outdoors Covered

Elgas offer a range of leading brand BBQs in all shapes and sizes, from two burners to eight burners, wok burners, side burners rotisserie kits and shelving options. Complementing our BBQs is a range of accessories and leisure products to provide you with the ultimate in outdoor entertaining. Talk to your local retailer for great advice on choosing the outdoor products to suit your lifestyle.

## CHESCOLD RC1180

\$1,120

This versatile, three-way portable refrigerator / freezer will operate with LPG or with either 12V or 240V electric power supplies, giving you full flexibility. In keeping with its adaptable nature, the internal divider can either be used to split the unit into separate refrigerator and freezer compartments or removed to transform the unit into a powerful 50 litre refrigerator.

#### CHESCOLD B533 FINCH

\$495

This is a new generation portable refrigerator with a high performing cooling unit and a robust bond steel cabinet. It operates on LPG or with either 12V or 240V power sources and has a spacious 33 litre interior.

#### CHESCOLD F400

\$835

Enjoy the complete freedom and flexibility of this 39 litre portable refrigerator / freezer. The high performance cooling system is housed in a sturdy moulded cabinet which operates on LPG or with either 12V or 240V power sources.

#### RINNAI

#### **GOURMET 4**

This Rinnai Gourmet outdoor kitchen is constructed of premium 304 grade stainless steel ensuring long life. It features two main cooking burners, a wok burner, a 240V rotisserie kit, electronic ignition and an inbuilt temperature gauge. It has stainless steel burners for greater efficiency and durability and comes with a protective cover and a cookbook.

**ELGAS** 

#### **RINNAI**

#### **IMPRESSOR 8**

Make outdoor entertaining an unforgettable experience with this professional outdoor kitchen. The body, hood and cabinets are manufactured from premium 304 grade stainless steel, ensuring long life. It features five main cooking burners, two side burners, an infrared rotisserie kit, electronic ignition and an inbuilt temperature gauge. In addition, it has stainless steel burners for greater efficiency and durability and comes with a protective cover and cookbook.

#### **EVERDURE**

#### KIMBERLEY 4 BURNER

This Australian Classic Series long-life 304 Grade stainless steel BBQ will impress all guests. It features four main burners with handy hot plate and grill plate. The triple brass wok burner with lid is powered by electronic ignition for ease of use. In addition, the trolley is conveniently positioned on four heavy duty castors and offers generous storage in its fully sealed cupboard with frosted glass doors. Optional 240V rotisserie and BBQ cover.

## Our best invention goes unnoticed... and we're delighted!

Every home owner recognises the importance of finishing touches, which is why EasyGas DownUnder is a must-have for the discerning home owner, renovator or builder.

Exclusive to Elgas, this innovative LPG storage solution houses the entire household LPG supply underground, with the only visible sign of the cylinder being a small access lid which sits flush with the ground.

- · Out of sight
- Out of the way
- Discreetly landscaped into the garden or lawn surrounds

The cylinder is located close to the property boundary to facilitate hassle-free topups from the Elgas tanker. What's more, Elgas monitor the household's gas usage and schedule deliveries to suit.

Call your local Elgas representative on 131 161 for more information.
